CALCULATE YOUR CUMULATIVE USC GPA ADJUSTED FOR UNDERGRADUATE GRADE FORGIVENESS

This calculator will give you a projected cumulative USC system grade point average (GPA) if you apply grade forgiveness for a course in which you have earned a grade of D+, D, F, WF. You may apply grade forgiveness to two (2) USC courses taken at the same USC campus. Prior to using this calculator, please review the undergraduate grade forgiveness policy at http://registrar.sc.edu/html/grade_forgiv.stm.

NOTE: This calculator is based only on the data you supply and is not linked to the university student data base and the results are not official or binding.

Instructions:

1. Using your current Grade Report on VIP, enter your cumulative USC GRADE POINT AVERAGE (GPA)

2. Enter your current cumulative USC GRADE HOURS (GH)

3. Enter the credit hours and the grade for the course you want to apply grade forgiveness. This is the credit hours and grade from the first time you attempted the course and earned a grade of D+, D, F or WF.

4. Enter the letter grade you expect to earn in your second attempt of the course.

5. Click the "Compute" button.
