Unauthorized Access to the contents of any test or examination or the purchase, sale, or theft of any test or examination prior to its administration.

Previously Administered Exams
Be wary of studying previously administered exams, unless they are provided by your professor. If you receive a previously administered exam from another student, and do not know whether it is authorized study materials, ask your professor.

Solutions Manuals/ Publishers' Tests
Solutions manuals and textbook publishers' tests will likely never be authorized exam study materials. If you think that your professor would allow you to study from these materials, seek your professor’s permission before you proceed.
