Your Career Journey…
Getting Started and Staying Focused

Career Center
New Student Orientation
Summer 2015
Why Are You Here Today?

• I want to get a job when I graduate.
• Make college pay off.
• To get into graduate school.
• So I’m headed in the right direction.
• Because I’m not sure what I want to do with my life.
Why Are WE Here Today?

"Employability is having a set of skills, knowledge, understanding and personal attributes that make a person more likely to choose, secure and retain occupations in which they can be satisfied and successful."

University of South Carolina Employability Model

Adapted with permission from the CareeredGE Model of Graduate Employability (Douro Pool & Sewell 2007)

Whether or not a student finds employment can be impacted by factors both inside and outside the model (i.e., a downturn in the market, selection of major/major or speciality requirements by the student.)

Self-efficacy: One’s belief in one’s own ability to achieve specific goals.

Self-confidence: One’s strength in belief in one’s overall capacity for success — a general sense of self-assurance. Self-efficacy plays an important part in determining self-confidence.

Reflection, Integration & Evaluation

Employability
